Re: Food Delivery

In order to maintain the highest levels of safety and security at Paramus High School, random and unapproved food delivery to PHS for students is no longer permitted.

Although the ordering of lunch and food has become ubiquitous in settings outside of school, it has been determined along with the Paramus Security Team, PHS Administration, and our building SRO, that we can no longer receive food or drink deliveries from any of the various delivery services including, but not limited to DoorDash, GrubHub, Uber Eats or etc.

All visitors who come to PHS must be approved and go through our security procedures - **it is not possible to uphold these mandatory procedures with random drivers who have been coming to campus throughout the day.**

Please have this conversation with your child and inform them of this expectation prior to the beginning of school so that your funds are not wasted on undelivered orders. Food or drink will not be accepted at the security desk and all deliveries will be turned away.

We appreciate your cooperation on this matter as our #1 goal continues to be the safety and security of the PHS community.
